

Fact Sheet Refresher Course for Forklift Operators

Clients

This refresher course is for operators of forklifts.

Duration and Course Outcome

This course will be conducted over **one (1) day**. The candidate will receive a Statement of Attendance on successful completion of the unit.

Overview of Course

1. Current OHS requirements
2. Industry review
3. Current and future licensing requirements
4. Theory training review
5. Practical training review
6. Challenge test (Theory assessment will be a condensed version of the national assessment Instrument whilst the practical test is from the national assessment.)

Pre-requisites

Koolat Safety places a prerequisite that the candidate must hold a nationally recognised forklift licence.

Delivery

The course is delivered face to face at either the client's premises or Koolat Safety's Industry Skills Centre in Helensvale.

Knowledge Assessment

The theory assessment is competency based. There is a requirement to achieve a **100% pass mark** to be deemed competent in the course.

Performance Assessment

The candidate is allowed **one (1) hour** under normal conditions to complete the practical assessment. All tasks/activities must be satisfactorily demonstrated. If you do not satisfactorily demonstrate all tasks/activities then your assessor is required to enter a result of "Not yet competent".

This Performance Assessment is to assess the performance of the candidate to operate a forklift. Prior to the assessment commencing the assessor must confirm that the candidate has appropriate personal protective equipment.

Resources

Fully compliant forklift will need to be provided on site during the assessment. All associated equipment including PPE must be provided by the candidates.
